

DEAR READER

Investments in alternative asset classes are becoming increasingly popular.

The large variety of investment vehicles in the field of alternative asset classes makes it difficult for investors to identify suitable investments. What kind of investment opportunities exist? What are the risk and return characteristics? How to invest without minimum investment and holding period?

An efficient access to private markets is feasible via Listed Alternatives. This investment opportunity offers appealing characteristics such as daily liquidity, performance transparency and direct exposure to a diversified private market portfolio with no minimum investment requirements.

The LPX Private Equity Barometer is designed to provide detailed data and statistics of the global listed private equity market. The LPX Private Equity Barometer provides insight with regard to allocation, performance attribution, valuation, vintages and ESG.

ABOUT US

LPX AG is a leading research house in the field of Listed Alternatives and offers investment professionals a wide range of services, covering the global listed private equity universe. Having been at the vanguard of alternative asset democratization since 2004, LPX AG offers representative benchmarks for the asset classes Private Equity, Infrastructure and Private Debt.

LPX AG also offers investment advisory and research data based on in-depth research, to a broad array of financial institutions seeking liquid exposure to alternative asset classes.

Vintages

All members of the LPX50 Index are structured as evergreens and invest on an on-going basis. From this background the LPX50 provides immediate access to a diversified private equity investment portfolio across different vintage years with no J-Curve effect.

Vintage Year Allocation of Direct Private Equity Investments

Vintage Year Allocation of Fund of Fund Investments

Vintage Year in the context of listed private equity refers to the date in which capital was deployed to a particular deal.

Sector Allocation over 10 years

	2012	2022
Consumer Discretionary	13.95%	21.28%
Financials	30.90%	16.66%
Information Technology	5.58%	18.87%
Industrials	24.65%	17.39%
Health Care	8.56%	11.61%
Other	10.73%	9.07%
Consumer Staples	3.46%	3.08%
Energy	2.16%	2.04%
Total	100.00%	100.00%

Regional Allocation

North America	64.65%
Europe	24.03%
UK	7.35%
RoW	3.97%
Total	100.00%

The LPX50 Index includes both private equity companies that are sector specialists and private equity companies that invest in a broad array of different sectors. On a look-through basis, the private equity investments of the LPX50 members provide access to a diversified private equity investment portfolio across industry sectors. Over the past 10 years, the sector allocation has changed. For example the exposure to Financials has decreased from 31% to 17%. On the other side the exposure to Information Technology has increased from 6% to 19%.

III - LPE Fund Managers - Assets under Management (AuM)

Over the past years, well known private equity fund managers tap public markets like KKR, Blackstone, EQT, etc. Private markets have experienced significant growth. There is rising interest from investors across the spectrum, from institutions that did not invest in private markets before to individual investors who had no access. There are also regulatory tailwinds for the market which will lead to further growth and allocation in private markets over next years. The AuM have increased substantially over the past years to EUR 2'601 billions as of June 30, 2022.

Total Assets under Management (AuM) in EUR billions

The Private Equity Universe

Generally, there are three different Private Equity Categories with a differentiation on whether the investments are made directly, indirectly or within an asset management mandate. Altogether, the private equity investment styles, categories and the vintages determine the risk and return characteristics of an investor's private equity portfolio.

Private Equity Categories

Direct Private Equity

- Investing: Direct from the own balance sheet
- Investments: Private companies
- Selection: Private companies

Indirect Private Equity

- Investing: Indirect via private equity funds
- Investments: Private equity funds (LP)
- Selection: Fund Managers

Private Equity Fund Managers

- Investing: Asset Management
- Investments: Private Market Investments

IV - ESG (Environmental, Social and Governance)

Overview

ESG refers to a companies' Environmental record, Social engagement and Governance practices. ESG investing is also known as sustainable investing as it incorporates a companies' values and concerns about the environment into the investment selection criteria. Furthermore, a growing number of companies are adjusting their operational stance to make it more ESG-friendly. ESG measures shall provide insights into the companies' impact and how they compare against benchmarks and peers. So far, most of the ESG criteria and reporting was rather subjective, with some companies providing ESG reports. Lately, efforts have been made in terms of regulation so as to make ESG reporting more objective, traceable and quantifiable.

The story so far...

LPX50 Members - ESG Coverage
